

PRICE LIST – Overhead Irrigation Systems

For Commercial Polytunnels – 16ft Wide to 30ft Wide

An overhead watering system is a simple and effective method of bringing water to your polytunnel, ensuring that the plants you have tended and nurtured receive just the right amount of water.

It is essential to consider the water **SUPPLY** and water **PRESSURE** when irrigating large areas, therefore **Premier Polytunnels** have used their expertise to design systems that you can rely on.

- Two irrigation lines run along the length of the tunnel for polytunnels from 16ft wide up to and including 24ft wide.
- For polytunnels greater than 24ft wide, three irrigation lines run along the length of the tunnel.

ALL PRICES SHOWN ARE INCLUSIVE OF VAT.
