

PRICE LIST – Overhead Irrigation Systems

For Garden Polytunnels – 6ft Wide to 14ft Wide

An overhead watering system is a simple and effective method of bringing water to your polytunnel, ensuring that the plants you have tended and nurtured receive just the right amount of water.

It is essential to consider the water **SUPPLY** and water **PRESSURE** when irrigating large areas, therefore **Premier Polytunnels** have used their expertise to design systems that you can rely on.

- A single central line is the ideal way to water garden tunnels up to and including 12ft wide.
- On polytunnels greater than 12ft wide, two irrigation lines run along the length of the tunnel.

ALL PRICES SHOWN ARE INCLUSIVE OF VAT.
