

FRUIT & VEG POLYTUNNEL YEARLY PLANNER

The **Premier Polytunnels** 'Yearly Planner' has been put together based on experience and advice from a number of real polytunnel gardeners, and will help you to determine when to sow, plant, and harvest your own delicious home-grown produce. A polytunnel puts you in control of nature.... Weather, pests, watering, and ventilation are all under your control, helping you to extend the growing season at each end of the year. Vegetables do particularly well under a polythene cover and this is probably the most popular use for a polytunnel and, even in the cold British weather, fruits such as strawberries and tomatoes flourish under cover. So whatever your pleasure, you can be sure it will grow better in a **Premier Polytunnel!**

CROP	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC
